

# MICHAEL DAVE SAM C. MAGABO

## WEB DEVELOPER

### About Me

As a junior web developer, I am enthusiastic about crafting user-friendly websites and eager to learn and grow in the industry. I bring a strong willingness to innovate, collaborate, and contribute positively to web development projects.

### Project Experience

#### Developed an E-commerce Website

<https://github.com/MdsMagabo/Capstone.git>

Within our project team, I contributed significantly to the development of a dynamic e-commerce website. Through cross-functional collaboration, we crafted an intuitive, integrated essential e-commerce features, optimized performance, and ensured ongoing support. Our collective efforts improved our skills in front-end and back-end development, analytics, and project leadership, resulting in a successful online platform. Technology Used: React JS, SQL

#### Designed a Lead Generation Website

Best Mini Project 2 - WD75

<https://mdsmagabo.github.io/MiniProject2/>

I developed a lead generation system for a visa center, streamlining the process of connecting prospective travelers with the center's services. This platform efficiently collects and manages user data, facilitating the acquisition of potential clients seeking visa assistance.

Technology Used: HTML, CSS, Javascript
